8

All of these texts will capture the interest of adults as well as our eighth graders. With graduation on the horizon we continue in college-prep language arts with an emphasis on composition using Write Source 2000. Word derivatives from Greek and Latin are also expanded. Unabridged classics are read with CHC *Reader's Guides* and the biography of Booker T. Washington.

The Kingdom of God (Part II) develops the Bible study from the kings to the minor prophets. Students finish their study of the Old Testament in eighth grade, or have the option of working in the *Westminster Shorter Catechism*, a worthy choice for older siblings as well.

An excellent American history text presents the story of our nation from Columbus to the present. The *History Overlay* and the *CHC History Schema* give Christian perspective, and a thorough test set gathers every important strand together. A biography and a selection of American literature are coordinated with this study.

The physical science studies are from a clear, creationist perspective. A test manual is provided. Saxon *Algebra ½* is the math course used in eighth grade. For the student desiring to do a complete Algebra I course in this grade, we recommend either of the math options listed in the ninth grade level.

Eighth Grade Full Curriculum Includes

- Covenant Home *Preceptor* CD-Rom
- CHC Full Curriculum *Day-by-Day Scheduling Guide*
