The emphasis in second grade gradually shifts to the building blocks of grammar, the structure of our language. Previously learned concepts are reviewed and built upon while the student begins memorizing rules of syllabication, alphabetizing, plurals, possessives and more. Students make a transition from manuscript to cursive writing. The Skilltext Readers are superior in developing higher level comprehension skills and critical thinking.

We cannot begin too early to teach children to think! Somewhat more detailed book report forms are designed to create in the student a love for reporting. One excellent aspect to our spelling program is the weekly proofreading practice, which begins the transfer of this responsibility from the parent to the child.

The Old Testament study is continued from King David through the prophets, this time with an added workbook children enjoy. Early American history is covered through the *Heritage Studies 2* textbook and student activities. This exciting study deals with communities, colonization, the War for Independence and much more.

Science explores anatomy and physiology. In math students will learn to add and subtract through 3-digit numbers. Particularly noteworthy in all levels of our math series are the Mental Math exercises. Though the focus at this level is on the concrete and the factual, we like to begin challenging the reasoning skills of a student, preparing him for more complex thinking.

Second Grade Full Curriculum Includes

- Covenant Home *Preceptor* CD-Rom
- CHC Full Curriculum *Day-by-Day Scheduling Guide*
- Covenant Home *Grading Masters*
- Covenant Home *Second Grade Course Blueprint packet*
- *Suffer Little Children: Book 2,* teacher text with student workbook and answer key
- *Suffer Little Children* quarterly exams with answer key
- CHC Scripture memory program
