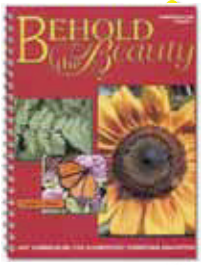
Behold the Beauty, by Connie L. Meyer



Art opens our eyes to the beauty God has created all around us. *Behold the Beauty* is a treatment of art education from a Christian viewpoint.

The lessons teach the elements of art: Line, shape, texture, color, value, and form, and include instruction in putting these elements together. For each grade, there are twelve lessons, which are divided into six main subheads: Objective, Supplies, Vocabulary, Introduction, Directions and Variations. The book also includes reproducible student worksheets. The lessons do not assume prior knowledge of art, so the parent/teacher can learn the elements and principles along with the students.

Book includes:

- Soft cover, spiral-bound teacher's manual
- Excellent introduction to a Christian perspective on art
- 179 pages
- 24 lessons included for Kindergarten and 1st grade

***Behold the Beauty* (Grades K-1) $29.95**

Flat Fish: Phonics, Numbers or Words

(Pre-school age – Kindergarten)

Phonics Flat Fish come in a set of 54 interlocking foam fish, 9 each of 6 different colors (red, yellow, blue, green, purple, orange). Each fish: measures 4" x 3" x 8mm thick; features a lowercase letter, consonant blend, vowel combination or word ending printed on one side, with a textured surface on the reverse; has an eye-hole for lacing. **Especially good for kinesthetic learners!**

Numbers Flat Fish come in a set of 54 interlocking foam fish, 9 each of 6 different colors (red, yellow, blue, green, purple, orange). Each fish: measures 4" x 3" x 8mm thick; features a number printed on one side, with a textured surface on the reverse. This unique set of foam fish is non-toxic and washable and **allows young children to develop their number recognition skills through activities that involve matching numbers, names, and dots, plus patterning and sequencing.** An activity guide is also included.

Words Flat Fish come in a set of 54 interlocking foam fish, 9 each of 6 different colors (red, yellow, blue, green, purple, orange). Each fish: measures 4" x 3" x 8mm thick; features a word printed on one side, with a textured surface on the reverse; has an eye-hole for lacing. Includes 2 laces with an activity sheet. Allows young children to develop their letter recognition skills through matching letters, sequencing letters, and spelling simple words.

EACH FLAT FISH SET $19.99

Kindergarten Supplemental Readers:

These two phonetically controlled readers* make the perfect add-on to your kindergarten curriculum. Nicely illustrated, both books are written in poem form and worth reading time and again.

- *Jack and Jill and Big Dog Bill*
- *Here Comes Silent e!*

This somewhat more challenging story makes an excellent bridge between kindergarten and first grade. Your child is guaranteed to enjoy this excellent story about someone he has already "met."

- *George Washington and the General's Dog*

Set of three readers $11.95

* A phonetically controlled reader is one in which the majority of the words do not exceed the limits of the student's phonics ability.

How to Teach Spelling

This manual is a comprehensive resource providing a method for teaching spelling lessons, suggested spelling rules and word lists. Each suggested lesson builds on previous lessons; phrases and sentences for dictation include words that test the rules which have already been learned. Sight words are assigned in order of difficulty and then incorporated into the phrases and sentences for dictation.
